

## Timber Acoustic Panels– Decorative Wall Panels

### Transforming Ordinary Interiors Into Dramatic Spaces

Create a designer look, make a dramatic statement, or simply add a touch of elegance to your interior space with a wide choice of solid wood, wood veneers and laminates finishes.

With these hand-crafted decorative wall panels and acoustic ceilings, you can easily transform the interior of your office, conference room or auditorium into a comfortable and aesthetically pleasing environment. Ideal for new construction or refurbishment.

#### Durable finishes and materials

We have a wide range of high quality wood, wood veneer and high-pressed laminate finishes for you to choose from. These decorative panels have excellent noise absorption properties, some can be incorporated for chilled ceiling applications.
