

Kydon Learning Content Management System Is Future-Proof

With Kydon Technologies' **Learning Content Management System (LCMS)**, you can create, store and publish content once and easily **reuse** existing content in different formats – and at very **cost-effective** prices.

As Kydon's Learning Content Management System is built on industry-accepted e-learning standards such as SCORM, AICC and IMS – you can be sure it is future-proof – and integration with any **learning management system** or business system will be seamless.

If you are looking for a **flexible, scalable** and **affordable** Learning Content Management System to manage your learning content in one centralised location, **Kydon LCMS is your cutting-edge solution.**

Discuss with us about creating a future-proof Learning Content Management System to support your enterprise-wide elearning efforts.
